Introduction

The following information presented in compliance with participation in the CSP E666R Forest Songbird Habitat Maintenance.

These bird census reports will be used by our consulting foresters Jennifer Boyle Warner and Mike Warner of Arbor Terra Consulting to prescribe forests management practices for the implementation phase of our participation in CSP E666R.

Notes:

1. The Bird Habitat Data Field Data Sheets were completed by Indiana State District Forester James Potthoff on 2/7/23. The photos of each plot were taken shortly after.
2. Bird Census data sheets are provided for each plot for each time data is collected. In addition, a “Trip Report” for each visit is reported in this section of the website for each visit. The trip reports also contain a description of the bird survey methodology.

Questions regarding the material presented here may be directed to Richard Hines at rich@richhines.com or 765-421-9966.
